APRIL 1992

Madigan Names Members To National Dairy Board

Washington, April 14--Secretary of Agriculture Edward Madigan announced the appointment of three new members and nine incumbents to the National Dairy Promotion and Research Board for three-year terms beginning May 1 and ending April 30, 1995.

Newly appointed are: Region 4--Myron Dale Schmidt, Newton, Kan.; Region 7--Maynard J. Lang, Brooklyn, Iowa; and Region 11 Harold Levi Lenhart Sr., Thurmont, Md.

Reappointed to serve second terms are: Region 1--Alvin J. Sherman, Coupeville, Wash.; Region 2--Robert W. Giacomini, Point Reyes, Calif.; Mary B. Parente, Ontario, Calif.; Ronald Quinn, Tulare, Calif.; Region 6--Sylvia J. Hemauer, Plymouth, Wis.; John A. Malcheski, Pulaski, Wis.; Region 9--Elwood C. Kirkpatrick, Kinde, Mich.; Region 10--Harold T. Arant, Bowman, S.C.; and Region 12--Patricia Kay Zeosky, Turin, N.Y.

The National Dairy Promotion and Research Board, composed of 36 dairy farmers, was established by the Dairy and Tobacco Adjustment Act of 1983 to develop and administer a

coordinated program of promotion, research and nutrition education. The board is authorized to design programs to strengthen the dairy industry's position in domestic and foreign markets.

The national program is financed by a mandatory 15-cent per hundred-weight assessment on all milk produced in the contiguous 48 states and marketed commercially by dairy farmers.

USDA's Agricultural Marketing Service monitors the operations of the board.

Madigan Announces Additional Dairy Initiatives

Secretary of Agriculture Edward Madigan announced on April 9th that he is taking four additional administrative steps to bolster farm milk prices.

"The Administration shares the dairy industry's goal of avoiding un-

necessary price instability," Madigan said. "We are implementing new administrative actions to supplement the six steps announced on March 11.

"These new initiatives should help balance supply and demand for milk and dairy products this year, and therefore stabilize farm milk prices," he said.

Madigan said the U.S. Department of Agriculture will immediately take the following steps:

--Add Mexico as an eligible destination under the Dairy Export Incentive Program (DEIP) for 25,000 metric tons of milk powder, making 86 countries that now qualify under the program.

--Revise the current dairy export program invitation for cheese to include additional varieties of cheese for those countries currently eligible to purchase cheddar cheese under the program. These varieties will include mozzarella, gouda, feta and cream cheeses.

--Continue to inform DEIP countries that if they are eligible for export credit guarantees they may use the

(Continued on page 2)

(Continued from page 1)

credit for the dairy export program.

--Adjust the Commodity Credit Corporation (CCC) purchase price of barrel cheese by reducing the differential between cheese in 40-pound blocks and 500-pound barrels from 4 cents to 3 cents per pound.

The six steps USDA took last month suspended the resale of CCC cheese and nonfat dry milk; offered to make advance purchases of cheese for several feeding programs; made dairy products fully available for export

credit or donation programs; included cheddar cheese as an eligible commodity under DEIP; facilitated the use of DEIP through risk protection to private exporters; and included nonfat dry milk, when available, as an eligible product for donation under Section 416 of the Agricultural Act of 1949.

March Milk Production

Milk production in the 21 major States during march totaled 11.1 billion pounds, up fractionally from production in these same States in March 1991. February revised production, at 10.2 billion pounds was 3 percent above February 1991 (not

adjusted for leap year).

Production per cow in the 21 major States averaged 1,343 pounds for March, 33 pounds above March 1991.

The number of cows on farms in the 21 major States was 8.26 million head, 13 thousand head below February and 200 thousand below March 1991.

During the January-March period, the 21 major States produced 32.0 billion pounds of milk, 84.4 percent of the U.S. production. If the remaining 29 States not surveyed monthly followed the same pattern as the 21 States, the U.S. production would be 12.7 billion for January, 12.1 billion pounds for February, and 13.1 billion for March.

February	12,098,057	March	12,621,007

FEDERAL ORDER 33 MARKET SUMMARY FOR MARCH 1992

Gross Class I utilization averaged 4,281,421 pounds per day during March 1992. On a daily basis this was a decrease of 2.6% from the previous month and 2.9% less than March 1991.^{1/}

The March 1992 Class I utilization of producer milk totaled 131,057,359 pounds or 54.5% of the reported producer receipts. This utilization percentage is 1.9% less than last month and .8% less than March 1991.^{1/}

The average butterfat test for gross Class I utilization was 2.0% for March 1992.

Receipts from 3,222 producers by 27 pool handlers regulated by Order No. 33 averaged 7,761,933 pounds daily for March 1992. On a daily basis this was .8% less than last month and 1.8% less than March 1991.^{1/}

Producers supplying the market increased by 35 from the February 1992 total and decreased by 202 from March 1991. The daily average producer receipts per farm of 2,409 pounds were 6 less than the previous month. On a daily basis this is 101 pounds more than March 1991.^{1/}

The March 1992 Class I price was \$13.75 per hundredweight for 3.5% milk delivered to pool plants in Zone 3. This was 39 cents less than the February 1992 Class I price and \$1.55 more than the March 1991 price. Prices for Class I milk in parts of the marketing area other than Zone 3 reflect the specified location adjustment of minus 24 cents in Zone 1, minus 14 cents in Zone 2, plus 7 cents in Zone 4 and plus 15 cents in Zone 5.

The Class II price for March 1992 was \$11.04. This was 86 cents less than the February 1992 Class II price and 92 cents more than the March 1991 Class II price.

The Class III price of \$10.98 for March 1992 was 23 cents less than the previous month and 96 cents more than the March 1991 Class III price.

The April 1992 Class I price will be \$13.25 for 3.5% milk.

^{1/} Comparisons to previous periods are magnified due to changes in the handlers included in the pool.

FEDERAL ORDER 36 MARKET SUMMARY FOR MARCH 1992

Gross Class I utilization averaged 5,232,810 pounds per day during March 1992. On a daily basis this was a decrease of 2.4% from the previous month and 2.1% more than March 1991.^{1/}

The March 1992 Class I utilization of producer milk totaled 162,031,932 pounds or 50.9% of the reported producer receipts. This utilization percentage is 1.8% less than last month and 0.2% more than March 1991.^{1/}

The average butterfat test for gross Class I utilization was 2.1% for March 1992.

Receipts from 4,607 producers by 32 pool handlers regulated by Order No. 36 averaged 10,279,779 pounds daily for March 1992. On a daily basis this was 1.2% more than last month and 2.0% more than March 1991.^{1/}

Producers supplying the market decreased by 9 from the February 1992 total and decreased by 221 from March 1991. The daily average producer receipts per farm of 2,231 pounds were 31 more than the previous month. On a daily basis this is 144 pounds more than March 1991.^{1/}

The March 1992 Class I price was \$13.71 per hundredweight for 3.5% milk delivered to pool plants. This was 39 cents less than the February 1992 Class I price and \$1.55 more than the March 1991 price.

The Class II price for March 1992 was \$11.04. This was 86 cents less than the February 1992 Class II price and 92 cents more than the March 1991 Class II price.

The Class III price of \$10.98 for March 1992 was 23 cents less than last month and 96 cents more than the March 1991 Class III price.

The April 1992 Class I price will be \$13.21 for 3.5% milk.

1/ Comparisons to previous periods are magnified due to changes in the handlers included in the pool.
